

XIENCE V™

Patient Care Program

More than
\$1,000
in benefits for
qualified patients!

The XIENCE V™ Patient Care Program is a benefit program designed specifically for patients who receive a XIENCE V™ drug eluting stent from Abbott Laboratories.*

Patients who enroll in the program may be able to:

- Save up to \$30 each month for six months on prescription antiplatelet (anticoagulation) medication.
- Participate in a personalized reminder service for their antiplatelet (anticoagulation) medication.
- Save up to \$30 each month for six months on TRILIPIX™ (fenofibric acid) delayed-release capsules, NIASPAN® (niacin extended-release tablets), and SIMCOR® (niacin extended-release/simvastatin tablets) from Abbott Laboratories.
- Through the FreeStyle Promise™ Program*, receive one FREE Freestyle Lite® or FreeStyle Freedom® Lite blood glucose monitoring system, save up to \$50 every month (or up to \$600 per year) on test strip co-pays, and have access to personalized health expertise by certified educators and ongoing product support.

XIENCE V™ Patient Care Program

Abbott
A Promise for Life

How it works:

- Your staff provides patients with a XIENCE V™ Patient Care Program brochure after the implantation of a XIENCE V™ stent.
- Patients call to enroll in the program. Patients bring a XIENCE V™ Patient Care Program identification card to their pharmacist along with an insurance card (if applicable) and prescription to redeem this offer.

* This program is not valid for persons eligible for reimbursement of these products, in whole or in part, under Medicare, Medicaid or similar federal or state programs. In Massachusetts, this program is not valid for persons eligible for reimbursement of these products, in whole or in part, by any insurance company or other third-party payer. FreeStyle Promise™ Program is sponsored by Abbott Diabetes Care.

CAUTION: Federal law restricts this device to sale by or on the order of a licensed practitioner. Prior to use, it is important to read the package insert thoroughly for instructions for use, warnings and potential complications associated with the use of this device.
